

BULLFROG[®]
SAFER FOR THE POND WE LIVE IN.

only

THE ^v COMPLETE AUTOMOTIVE / RV / MOTORCYCLE CORROSION CONTROL SYSTEM

THE BULL FROG

Fighting rust and corrosion on your valuable cars, trucks, RVs, bikes, motorcycles, tools, etc. is a never-ending battle. Bull Frog offers a real breakthrough in technology that has been perfected and proven in industrial and military applications around the world. Bull Frog offers a range of products to protect your investments and help them

TOOL WIPES

Bullfrog® Tool Wipe is a revolutionary wipe which removes surface rust, grease, oil and grime. Cleans and protects while leaving behind a long lasting VpCI® protective barrier. Perfect for tools, machinery, parts or any metal surface.

RUST BLOCKER

Prevents rust before it starts. Sprayed on, it forms an invisible "VpCI Molecular Umbrella" that seals exposed metal surfaces against rust such as latches, hinges, trailers, farm equipment, outdoor furniture, garden equipment and fences.

CLEANER DEGREASER WITH RUST BLOCKER

The hardest working cleaner/degreaser you can get, plus VpCIs protect metal surfaces from flash rust and corrosion. Biodegradable and phosphate free . . . engine, parts, motorcycles, farm equipment, power tools, hand tools, garden equipment and grills.

RUST REMOVER WITH RUST BLOCKER

Finally, a Rust Remover that is safe to use and safe for the environment and it really works! Cleans up with water . . . plus, VpCIs protect the metals from flash rusting . . . tools, cars, trucks, RVs, farm equipment, bikes, metal furniture, garden equipment.

HIGH-SHINE WAX & RUST BLOCKER

The one step paste wax that is the hardest working and brightest shining paste wax on the market. VpCIs will seal and protect the metal surfaces from corrosion. Protects against UV rays and fiberglass oxidation and is great for clear coat finishes . . . cars, trucks, RVs, motorcycles and boats.

FAST WAX & RUST BLOCKER

Shine and protect your vehicle in just minutes. The easiest and fastest wax available and the only spray wax that actively blocks rust and corrosion . . . cars, trucks, boats, RVs, even appliances.

RUST BLOCKER CUP

Stop rust for a year in any enclosed space up to 11 cubic feet. Use in tool chests, gun cabinets and electronic cabinets. Used by the world's largest companies to protect their critical assets from rust and corrosion.

RUST BLOCKER SHIELDS

Protect larger enclosed spaces from rust and corrosion. Hang it in a gun safe, storage locker, trunks, closets or engine compartments. Hang it up in a second and relax for a year.

BULL FROG[®] SYSTEM!

perform at their optimal level. Bull Frog products are safe for you and the environment. Although each Bull Frog product was created to perform a different task, each employs the same Vapor phase Corrosion Inhibitor (VpCI) Technology that has been proven to safely and effectively remove and control the ravages of rust and corrosion.

RUST BLOCKER STRIPS

Stops rust and corrosion just like the cups when placed in small spaces. Protect your tool box, fishing tackle box, electronic equipment, jewelry, coins and silver from corrosion and tarnish.

ELECTRONIC CLEANER & CORROSION BLOCKER

Remove the dirt, grit and corrosion that is silently attacking the performance and reliability of every electronic device, every electrical system that you own! Preferred by the U.S. Navy and repair technicians around the world . . . electrical connections, cars, trailers, equipment, outdoor lights, phones, remotes, TVs, VCRs, even light bulbs.

LUBRICANT WITH RUST BLOCKER

Not only stops everything from squeaking and sticking, but also prevents it from happening in the first place. Protects against rust and corrosion for up to a full year. No CFCs or 111 Trichlor . . . machinery, hinges, equipment, locks, hedge clippers, tools, nuts/bolts, any moving part.

BULL FROG ADDITIVE SYSTEMS

When you store an engine for than a month you need extra protection. Bull Frog provides the extra protection against rust in all of the air pockets in the engine, radiator system and fuel system. VpCI's guard against rust and corrosion above and below the liquid levels.

RUSTORER

When applied on rusty or poorly prepared metal surfaces, it quickly penetrates to bare metal to prevent further corrosion. Rustorer quickly converts existing rust into a passive hydrophobic layer, which can be used as a primer before top coating. Excellent for severe exposure conditions and exposures to sea-water.

BULLFROG'S[®] MOTORCYCLE COVERS PROTECT ALL YEAR LONG

Here's How VpCI™'s Work

Bull Frog[®] VpCI™'s bond electrochemically with metal surfaces to form a protective "Molecular Umbrella", sealing out the air and moisture that cause rust and corrosion.

Bull Frog Motorcycle and Car Cocoons stop the ravages of rust and corrosion on winter-stored motorcycles and cars. The cocoons are made from woven polyethylene and a high-density extrusion laminated coating. This multiple-layered protective fabric also features a non-woven, softened inside layer. It was designed to be a high strength, tear resistant fabric that seals out dust, dirt, snow, moisture and even dripping water. The outside reflective silver surface has double UV protection (up to 5 years in sunny and hot climates) making it ideal for outdoor storage. The Cocoon is fully reusable and 100% recyclable and non-toxic.

But, what's most important is what happens on the inside. Unlike any other standard cover, the Bull Frog[®] Motorcycle and Car Cocoon are impregnated with the patented Cortec[®] VpCI™ (Vapor phase Corrosion Inhibitor™) technology. The VpCI™s form a "Molecular Umbrella" of electrochemical inhibitors that migrate on to all the metal surfaces of the motorcycle including, crevices, cracks, and even in recessed areas. Cortec[®] VpCI™s provide clean protection. After storage, VpCI™s don't need to be removed with cleaning or degreasing chemicals later. That means the car or motorcycle is ready to go right out of the Cocoon. Bull Frog[®] Motorcycle Cocoons are available in three sizes: medium, large, and touring, (big enough to fit even the largest Harley Davidsons). Additional information and pricing is available on the Bull Frog[®] web site: <http://www.bullfrog.com/motorcycle.html>.
