

INHIBISYSTEM™

Corrosion Inhibiting Products

Proudly Made in the USA!

INHIBISYSTEMS™ would like to introduce you to a new world of corrosion inhibiting products called the INHIBICARD™.

Our products use the proven corrosion resisting Vapor phase Corrosion Inhibitor (VpCI™), that revolutionized the shipping and packaging industry. VpCI™ is widely used by the military and civilian packaging industries in the harshest environments on earth to keep metals bright, shiny and like new; without having to resort to messy petroleum-based products.

INHIBICARDS™ are printed on 100% recycled paper and are 100% bio-degradable, including the use of natural soy based printing inks.

Proven protection *and* earth friendly. Go Green!

CORROSION IS A GLOBAL PROBLEM

INHIBICARD - A GLOBAL SOLUTION

INHIBICARD™ is a trademark of INHIBISYSTEM™, LLC

VpCI™ is a trademark of Cortec® Corporation.

Introducing the INHIBICARD™

*Corrosion is a global problem
INHIBICARD™ provides a global solution.*

*Lab Tested & Proven to Work!
complete test results are
available at www.inhibisystem.com*

What is the INHIBICARD™?

Our business card sized INHIBICARDS are coated with Vapor phase Corrosion Inhibitor (VpCI™) and printed in full color with your company logo, phone numbers, web page, and optional spaces for your customers to record a variety of information.

Excellent Way to Advertise and Protect!

Keep your company name and logo in front of your customers on a daily basis! In tool boxes, gun and ammo cases, electronics packaging, shipping boxes, silver coins and jewelry, etc.

INHIBICARD™ may fall under the same tax deductibility regulations as your promotional products such as pens, hats and other items given out as advertising.

How is this an advantage to your company?

INHIBICARD™ gives you access to a proven corrosion inhibitor which provides cost effective advertising for years to come!

• **Environmentally Safe**

• **Biodegradable**

• **Printed on Recycled paper
using natural soy based inks**
